An excellent variant of the casino classics is Atlantic City Blackjack, which is a popular attraction for enthusiasts at 7 Sultans Online Casino. The rules add an outstanding combo of conditions and new features that makes game-play more rewarding and fun. Try your hand at this superb table game and you can walk away with spectacular prizes.

It is a game of skill and chance that revolves around both the dealer and the player building a hand that adds up to, but not more than twenty-one. A hand that surpasses twenty-one loses and is known as a bust. The player and the dealer can equally twist or receive additional cards until they are satisfied that the hand combination will defeat their opponents and can then hold.

The player plays first which gives the dealer the advantage of knowing what combo will be sufficient to defeat the players.
