Big Five Blackjack Gold - Casino: Blackjack Games

Visit [7 Sultans Casino](https://www.7sultans.com) to play the game

One of the most thrilling and exciting blackjack games that is available at 7 Sultans Online Casino is the exhilarating Big Five Blackjack Gold. It offers richer graphics and improved playability.

Five regular decks are used for game-play and these are shuffled before each round is played. A soft 17 forces the dealer to hit and any hand to the value of twenty-one is beaten by a blackjack. You can apply a normal five deck strategy and make use of the features in Expert Mode such as auto play and customize your own strategy card.

You can make use of a Late Surrender option to surrender half of your bet, this will allow you to avoid playing a potentially losing hand, but it cannot be played if a dealer has an Ace in the first round.

Most of the other rules are similar to the regular game; however before you play, familiarize yourself with these as they can be used to your advantage.
