You are guaranteed to have hours of unlimited blackjack fun when you engage in the exotic and terrific Double Exposure at 7 Sultans Online Casino. Your aim is to defeat the hand of the dealer by either hitting a higher value hand adding up to a total value of twenty-one but no more or by the dealers hand busting with a total of more than twenty-one.

Once your hand is comprised of a ten value and an Ace it is called a Blackjack and will stand automatically as it cannot be beaten. There are some key rules that can be used to your advantage including the fact that both player and dealers cards are dealt face up from eight decks of standard playing cards.
