Visit [7 Sultans Casino](#) to play the game

As part of the Gold Series from European High-streak Blackjack Gold is one of the most realistic variants of the stunning blackjack game. Two decks of regular cards are used for game-play and these are shuffled before every game. Any hand value of twenty-one is beaten by a blackjack. The dealer is forced to stand on seventeen.

It is played according to European rules and game-play is furthermore enhanced by a side bet possibility known as High Streak where your success rate in successive hands will enable progress along a chain of bonuses that can deliver a payback of up to 10:1. Once you are familiar with the rules you can play according to a strategy to win the hand of the dealer.
