Pontoon Blackjack Gold - Casino: Blackjack Games

Visit [7 Sultans Casino](#) to play the game

Pontoon Blackjack Gold is a variation of the classic blackjack game and is bound to keep players entertained while dishing out great rewards. The game is slightly more complex than the normal game, but players will find that the rules and regulations are really easy to follow.

Eight decks of standard cards with values similar to traditional blackjack are used to play the game and any 5 card hand will be paid two to one on the initial bet regardless of the hands total points. This rule however does not apply to busted hands. Players are however allowed to double down once on two to four hand cards.
