The superb Vegas Strip Blackjack can be enjoyed at 7 Sultans Online Casino. It incorporates standard rules with some additional features to present players with alternatives and more winning opportunities. The dealer is allowed to peek for blackjack when he has an ace or ten value card before the game begins by the player taking his turn and is also forced to stand on any seventeen.

Players can double and split as well as re-split on certain conditions. The player challenges the dealer to a higher hand and wins when his hand value is the closest to twenty-one. The dealer can also bust that allows an instant win to the player. Six decks of cards are used for game-play which is fast paced and smooth-running.
