Cherry Red is a splendid classic slot that is all about cherries. Almost from the beginning of slots cherries were the archetypal icon. Sumptuous graphics with juicy and glistening cherries are displayed all over the interface to continuously remind you of exceptionally good winning possibilities.

As the wild icon, the Cherry can finalize a winning sequence as it can replace others and it will multiply that win amount. Depending on the number of Cherry icons that finalized the sequence, your payout can either be doubled for one icon and quadrupled for two, while three of these dazzling icons receive the value of that combination as displayed in the payout table on the interface.
