American Roulette is an immensely popular gambling game that can be enjoyed at 7 Sultans Online Casino where you can win enormous prizes based on a lucky guess. It is an intriguing, interesting and very straightforward game. It has a spinning wheel with 38 pockets that are numbered from one to thirty six that are colored black or red and the two special green pockets are marked zero and double zero.

Your objective is to wager on a condition or a number of conditions that you think the round will end with. After the wheel is spun a small ball is released onto it against the direction of the spin. The ball will settle down and come to rest in one of the pockets and that number wins. All the pockets are indistinguishable and are in mathematical order for even distribution by color, low or high, value so that the ball has an equal chance to land in any of them.
