All Aces is an amazing poker game that is played with a single deck of cards that contains no wild cards. After a player has placed a bet they will receive five cards of which any amount can be kept or discarded.

Discarded cards will be replaced by the poker machine engine when the player clicks the draw button again. The most remarkable feature in the game is the All Aces bonus that rewards players for having all four aces in a hand.

By playing the maximum 5 coin bet, the payout on this bonus is a massive 2000 to 1. Coin sizes range from 0.25 to 5.00, so with these odds everyone wants to get in on the action.
